Brett -

The attached e-mail was sent to me by a colleague, Judge Judy Chirlin. In Jordan last February, Judge Chirlin participated in a program on Constitutionalism in Iraq sponsored by the Coalition Provisional Authority. There she met Mahasen Muhsen, a woman from southern Iraq who is a community leader. Judge Chirlin's e-mail to me forwards a message to her from Mahasen Muhsen. Judge Chirlin obtained the Iraqi woman's consent to allow me to forward the message to you. In fact, Ms. Muhsen said that she would have sent the message to the President if she had known how to do so.

I hope the message is encouraging to you and to the President should you decide to pass it on to him. Tell the President he remains in our prayers.

Carolyn

Let's see if this works. This is the email I mentioned.

I enjoyed the tour. Thanks!

JCC

dear judge judy  
glorious easter and i wish to spend happy day with your family  
we are in iraq live in unstable circumstances because of violent action by some of illiterate people  
who don't value your great job in liberating us and that is what is inherited from saddam which is  
tragedic  
please don't lose your trust in george bush and i beg american people to give their voices to  
mr. george bush in next election because he is brave and having brilliant mind and understood early  
what may result from saddam regime of production of terror to usa and all the world  
sadly violent activities are not representing all iraqis he is representing a minority of iraqis who  
are unemployed and who were dismissed from their job and some baath and saddam group  
sorry for making busy with me so much but i want to convey a real image  
about what is happening in iraq

thank you very much

your iraqi friend  
mahasen
