#### **Scope and Content**

The materials in FOIA 2014-0322-F are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2014-0322-F contains materials related to a meeting with four Vietnamese-American activists with President George W. Bush and Vice President Richard Cheney on May 29, 2007, at the White House. The Vietnamese-American democracy and human rights activists were Thanh Cong Do, Nguyen Le Minh, Diem Do, and Quan Nguyen.

This FOIA primarily contains a NSC profile sheet and various routing memoranda.

It should be noted that many of the documents listed here have been closed to National Security classification and/or exemptions of the Freedom of Information Act.

### **System of Arrangement**

The materials in FOIA 2014-0322-F are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

WHORM Subject Files are processed at the document level.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at [www.georgewbushlibrary.smu.edu](http://www.georgewbushlibrary.smu.edu)

George W. Bush Presidential Electronic Records are a unique segment preserved in an electronic system separate from the Electronic Records Archive (ERA). The records are processed by topic, printed, and filed in folders. Folders are arranged by Search and Access Set and thereunder by date.

George W. Bush Presidential Electronic Records contain electronic records created or received by members of the White House staff, as well as the Commission on Weapons of Mass Destruction. These frequently classified records document the daily constitutional and statutory duties carried out by the George W. Bush administration and include record types such as email, email attachments, Night Notes, and cables.
