

## **Inventory for FOIA Request 2017-0425-F[2]**

### **Records Relating to the British-United States Communication Intelligence Agreement (now known as the "UKUSA Agreement")**

#### **Extent**

210 folders, approximately 16,429 pages

#### **Access**

Collection is open to all researchers. Access to George W. Bush Presidential Records is governed by the Presidential Records Act (PRA) (44 USC 2201) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

#### **Copyright**

Documents in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

#### **Provenance**

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

#### **Processing by**

Staff Archivists, 2018. Previously restricted materials are added as they are released. Last Modified: 09/10/2018

#### **Scope and Content**

The materials in FOIA 2017-0425-F[2] are a selective, not necessarily all inclusive, body of documents responsive to the topic of the FOIA. Researchers should consult the archivist about related materials.

FOIA 2017-0425-F[2] requested materials related to the British United States Communication Intelligence Agreement (UKUSA Agreement).

The second segment of this FOIA primarily contains routine routing emails and slips, fact sheets, factual and informational cables, public biographies, participants lists, maps, and cover sheets. Also included are Background Papers, Scenesetters, and several reports. The Background Papers are factual background reports, which cover Canadian topics, such as lumber, energy, military, the environment, trade, and bilateral relations. The Scenesetters are factual reports about specific

locations; some locations included are Montebello, Papineau Manor, both in Canada; Kirribilli and Admiralty House, both in Australia. Also included are reports, Preventing Violent Extremism: A Strategy for Delivery, Protecting Sensitive Compartmented Information within Information Systems, and US-ASEAN Enhanced Partnership.

It should be noted that many of the documents in this FOIA have been closed due to National Security classification and/or exemptions of the Freedom of Information Act.

### **System of Arrangement**

The materials in FOIA 2017-0425-F[2] are a systematic body of documents responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Documents responsive to this FOIA were found in this collection area – Staff Member Office Files and George W. Bush Presidential Electronic Records.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

George W. Bush Presidential Electronic Records are a unique segment preserved in an electronic system separate from the Electronic Records Archive (ERA). The records are processed by topic, printed, and filed in folders. Folders are arranged by Search and Access Set and thereunder by date.

George W. Bush Presidential Electronic Records contain electronic records created or received by members of the White House staff, as well as the Commission on Weapons of Mass Destruction. These frequently classified records document the daily constitutional and statutory duties carried out by the George W. Bush administration and include record types such as email, email attachments, Night Notes, and cables.
