Scope and Content

The materials in FOIA 2022-0134-F are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2022-0134-F requested textual materials related to the “Strategy Group” from January 2002.

This FOIA primarily contains memoranda, correspondence, lists, schedules, scheduling proposals, calendars, reports, briefings, charts, meeting notes, resumes, magazine articles, and printed emails. The materials are concerned with President George W. Bush’s long-range policy initiatives, and the public’s level of support for his administration’s decisions. These include reports and briefings analyzing the results of polling and focus groups, presidential and legislative schedules for much of 2002, scheduling proposals and their impact on public support,

Strategy Group meeting summaries, voting analyses of the 2000 election, detailed briefings addressing the Democratic Party's tactics for opposing President George W. Bush on various issues, and discussion of President George W. Bush's travel.

System of Arrangement

The materials in FOIA 2022-0134-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files.

The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject Files and Alpha Files were compiled by staff in the White House Office of Records Management and are a series of documents assigned a letter/number combination and filed in a series of categories by subject. WHORM Subject Files and WHORM Alpha Files are processed at the document level.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
