“Putting these reforms in action will be challenging. But with the leadership of Secretary Leavitt and Administrator McClellan, I know you’re up to the task. We all know the alternative to reform: a Medicare system that offers outdated benefits and imposes needless costs. For decades we promised America’s seniors that we can do better, and we finally did. Now we must keep our word. I signed Medicare reform proudly and any attempt to limit the choices of our seniors and to take away their prescription drug coverage under Medicare will meet my veto.”

Dear Yigal,

Thank you for your letter. I appreciate your interest in my position on issues relating to the State of Israel.

Israel is America's strategic ally in the Middle East and a beacon of democracy. America's security and strategic interests are linked with those of Israel, and I hope that arrangements can be achieved through the peace process that will secure the State of Israel and are acceptable to the parties involved. While America should help foster dialogue and negotiations between the parties, a lasting peace will not happen if the United States tries to dictate our vision of Israel's security balance. Peace must be negotiated by the parties involved.

On the issue of the American embassy in Israel, I support moving the Embassy from Tel Aviv to Jerusalem. And, if I am fortunate to be elected President, I will set the process in motion immediately upon taking office.

As the campaign moves forward, your thoughts and ideas are always welcome. I appreciate your taking the time to write.

Sincerely,

I have master degree in business administration and more then 20 years of experience in different management positions. I gave economic and political advice to three presidents of U.S.A.

On year 1989 our country stand in front of a sophisticated problem. The institutions of savings and loans stand in front of a scandal that people lost trillions of dollars, and the industry stand in front of bankruptcy. The president and the congress and the house of representative stand in front of dilemmas how to solve the problem. I just got my master degree in business administration. I worked before as an economist in ministry of trade in Israel. I called the president of U.S.A and I advanced him that the institutions of savings and loans are not a necessary for our economy. The regular banks under supervision of the central bank are doing the necessary function of monitoring the amount of money in the market. The president accepted my recommendation. My recommendation saved trillions of dollars to our national economy. It also saved our nation from economic disaster and also it save our nation from tremendous corruptions for our society. People that cheat brought to justice, and our economy was saved from a disastrous situation.

On year 1992 after the election a new president was elected. The budget was in the trillions dollars deficit. The situation in the Middle East was tens. I gave the president advice to use fiscal and monetary policies to reduce the debt and to increase the economic growth. Also because of my background that I bourn in Israel and lived there for 25 years I gave the president advice to solve the conflict in the Middle East. The president has adopted both of my advices. The budget turn to surplus and the situation in the Middle East improved. Our economic situation was improved and our political situation in the Middle East was improved too.

On year 2001 our nation was attacked by terrorists on 9.11.2001, our country was surprised and unprepared. After the attack there were different approaches how to respond. I served before in the Israeli army and I had experience in handling terrorist and terror action. I called the president and I advised him that the best respond to terrorist is to destroy the terrorist. Because the war on terror is a zero sum game there is one winner and one looser and we need to be in the winner side. I also contact democrats and republicans leaders and convinced them that we need to declare war against terror and terrorists. My advice was adopted by the president and by the congress and by the house of representative. Our country went to war against the terror and the terrorists. This action saved our country from new 9.11 attacks and saved millions of American lives all over the world from attacks of fanatic Moslem terrorists.

Dear Mr. Adir:

On behalf of President Bush, thank you for your message concerning prosecution of fraud cases in connection with failed savings and loan institutions.

Since the earliest days of his Administration, the President has made reform of the savings and loan industry and prosecution of S&L fraud cases top priorities. Working closely with the Congress, he has succeeded in obtaining many significant regulatory reforms. Because a great deal of wrongdoing had already taken place, the President also directed the Attorney General to undertake aggressive pursuit of fraud cases. President Bush has made his position clear: "When it comes to criminal action, we aim for a simple, uncompromising position. Throw the crooks in jail."

The Justice Department has sought restitution to protect taxpayers through thousands of civil suits leveled against S&L executives, owners, and borrowers. Last year, for example, the Department won fraud convictions against 791 major financial institutions, involving losses of over \$100,000 per case. In addition to the efforts of the Justice Department, investigations are underway by the Internal Revenue Service and the Resolution Trust Corporation. The Federal Deposit Insurance Corporation also is pursuing more than 1,200 cases of fraud and negligence against thrift officials and has collected more than \$120 million in damages this year.

To enhance the Administration's ability to pursue financial fraud cases, the President is supporting a new package of legislative and administrative proposals. These range from requesting authority to freeze the corporate and personal assets of defendants in civil financial fraud cases to establishment of a new rapid response unit in order to quickly undertake cases that warrant immediate investigation. In light of your interest, I am enclosing information detailing these proposals.

2

President Bush believes that the Federal Government has a responsibility to protect the hard-earned savings of the American people, and that those who have betrayed their trust -- the cheats and the chiselers -- must make financial restitution and spend time in a Federal prison.

The President shares your concern and appreciates your bringing your views to his attention.

Sincerely,

Shirley M. Green

DEAR GEORGE W. BUSH

PRESIDENT OF U.S.A

SUBJECT: OFFER TO IMPROVE THE CORRENT POLITICAL SITUATION.

The result of this election show us that you need to get new leaders in your cabinet that will have an ability to work with the two parties, and can accomplish successfully the goals of securing our country from terrorists, improving our economic situation and leading our country to economic prosperity and international peace. The Iranian nuclear threat need to be destroyed immediately, before we will face. Another 9 11 of Iranian atomic bomb in us. There is no excuse for any delay.

So far no action in this matter only encourages more terrorist attacks on our troops in Iraq. It encourages North Korea to test their missals. And it encourages terrorist attack on our best ally in the Middle East Israel. We need to act immediately if not it will be interpret as weakness and will encourage terrorist attacks on American in us and others part of the world. Also it will encourage attacks on our allies. We can get free oil from Iraq, Saudi Arabia, quiet. This can save our economy from getting to deeper deat, we can go to surplus.

I have connection with both party leaders. I advanced thee presidents of us regarding economic and political issues. If you will offer me high position in your administration I am willing to help you to advance our country to an arena of economic prosperity, safety and real peace.

DEAR HEAD OF STATE

**SUBJECT: SOLUTION TO SOLVE THE PROBLEM IN THE
MIDDLE EAST**

Now we are in a good situation to solve the problem in the MIDDLE EAST permanently. We need to destroy the ATOMIC, chemical and biological weapons that in the hands of IRAN AND SYRIA. The leaders of those countries are unstable, and their usage of those weapons can cause a loss of lives of innocent people. The presence of American troops in the MIDDLE EAST gives us an opportunity to solve these problems. We need to transfer the PALESTINIANS FROM ISRAELI territories because the PALESTINIANS are one of the main causes of war in the MIDDLE EAST. We need to transfer them to IRAQ, SAUDIA ARABIA AND QUWAIT. We need to make sure that ISRAEL'S the best ally of U.S. in the MIDDLE EAST will be in a safe borders (of the Bible borders) with a strong and healthy economic condition to protect the interests of the Democratic and advanced countries in the world. We need to move the ARABS from Jordan to the area of SAUDIA ARABIA AND QUWAIT to reduce the friction and the state of war in the MIDDLE EAST. Now we are standing next to a masonic arena. Proof that, this is the prophecy of YEHSKEL that before the MOSHIACH will come. It will be an earthquake in different places in the world. We need to support Israel that it will stay in safe borders of the BIBLE and that it will be able to rebuild the HOLY TEMPLE in JERUSALEM in our time. This will ensure peace and economic prosperity to the world as a whole. The economic situation in the U.S.A. now needs an immediate improvement. We need to increase the economic growth and existing standard of living in U.S. that can be achieved by performing the right combination of fiscal and monetary policies. I will be happy to help you, the aims of peace and economic prosperity for the U.S. and the world as a whole.

Sincerely yours,

Yigal Adir

SUBJECT. A SOLUTION TO SOLVE THE PROBLEMS IN THE MIDDLE EAST AND ADVANCING THE AREA TO A STATE OF PEACE AND ECONOMIC PROSPERITY

The political situation in the MIDDLE EAST now standing in a critical point. We have to advance this situation to a point of real peace in the world. A short look in the history will show us that since the time that the JEWISH people left the land of ISRAEL the whole world suffered from World War II, and I. After more than 2000 years the Chosen People returned to their Holy Land. We have an obligation to help ISRAEL to be established according to the bible borders and to be as a strong nation. Israel is the only democratic and advanced country in the MIDDLE EAST. We have to help Israel to build the new temple in Jerusalem. By doing so we will advance the whole world to an arena of International Peace with a lot of blessings and Economic Prosperity. We need to destroy the Terrorist Organizations in the world that our citizens will live in Peace and Happiness and not in Fear and Terror. We need to help the Arabs in ISRAEL and JORDAN to immigrate to Saudi Arabia, their Homeland and by doing so will solve their economic, political problems. We need to help the Chosen People wherever they are in the World to Immigrate to ISRAEL and to build the New Temple in JERUSALEM as soon as possible. And by doing so as it is written in the Bible the whole world will get blessed. We need to destroy any objection and obstacles to accomplish this mission. We need to do whatever is in our power that this mission will be done, and then the prophecies of the prophets will be activated. The whole world will live in Real Peace, Economic Prosperity and Happiness. We together can do it and we will advance the whole world to the year 2007 of Blessings, Economic Prosperity and Real Peace.

Dear Yigal:

Thanks for sharing your thoughts about the economy.
I welcome your perspective on this important issue.

The economic plan that I signed into law in August 1993 helped our nation build a stronger economy by taking steps to reduce the deficit by nearly one-half, investing in long-term economic growth, and restoring fairness to the tax code. I am confident that my 1995 budget will further this progress by continuing reduction of the deficit, promoting additional investment in new technologies, increasing education and training, and creating more high-wage, high-skill jobs.

My budget proposal balances the many competing demands in the federal budget and prioritizes responsibly our country's many needs. As the budget is considered, I will keep your views in mind. I hope I can count on your support.

Sincerely,

Bill Clinton
