FOIA 2021-0138-F requested White House Television (WHTV) cut camera video footage of the Presentation of the 2007 National Medals of Science.

This FOIA primarily contains cut camera video footage of the Presentation of the 2007 National Medals of Science and Technology and Innovation on September 29, 2008 in the East Room of the White House.

#### System of Arrangement

The materials in FOIA 2021-0138-F are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – Staff Member Office Files.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

White House Communications Agency records are processed at the folder/videotape level. While this method maintains folder/videotape integrity, it frequently results in the incidental processing of videotapes that are not wholly responsive to the subject area.

The following is a list of videotapes processed in response to FOIA 2021-0138-F:
