Inventory for FOIA Request 2014-0232-F[1]

Records Sent to, Sent by, or Received by President George W. Bush Regarding the USA PATRIOT Act and Other Antiterrorism Legislation and Surveillance

Extent

1,056 folders, approximately 50,908 pages

Access

Collection is open to all researchers. Access to George W. Bush Presidential records is governed by the Presidential Records Act (PRA) (44 USC 22, as amended) and the Freedom of Information Act (FOIA) (5 USC 552, as amended) and therefore records may be restricted in whole or in part in accordance with legal exemptions.

Copyright

Records in this collection that were prepared by officials of the United States government as part of their official duties are in the public domain. Researchers are advised to consult the copyright law of the United States (Title 17, USC) which governs the making of photocopies or other reproductions of copyrighted material.

Provenance

Official records of George W. Bush's presidency are housed at the George W. Bush Presidential Library and are administered by the National Archives and Records Administration (NARA) under the provisions of the Presidential Records Act (PRA).

Processing by

Staff Archivists, 2024. Previously restricted materials are added as they are released. Last Modified: 01/16/2025

Scope and Content

The materials in FOIA 2014-0232-F[1] are a selective, not necessarily all inclusive, body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

FOIA 2014-0232-F[1] requested records sent to, sent by, or received by President George W. Bush regarding the USA PATRIOT Act, NSA surveillance, FISA court, warrantless wiretaps, warrantless surveillance, Muslims, Muslim-Americans, anti-war activists, Foreign Intelligence Surveillance Act, war on terror, domestic surveillance, and/or the terrorist surveillance program from September 2001 to January 2009.

This FOIA primarily contains briefing papers (presidential schedules and related memoranda for daily events), legislative reports, memoranda, White House/congressional correspondence, printouts of White House email exchanges, drafts of legislation, court filings and online printouts of court decisions, and speech drafts and reading copies of speeches. There is correspondence to and from members of Congress regarding NSA surveillance programs and FISA, including Dianne Feinstein, Ike Skelton, Edward Kennedy, Nancy Pelosi, and Jane Harman. The records document both internal White House and administration-congressional efforts to draft anti-terrorism legislation, and speeches in which President Bush talked about administration anti-terror initiatives.

Please note that a portion of classified records related to this request has not yet been processed. Additional records will be provided as they become available.

System of Arrangement

The materials in FOIA 2014-0232-F[1] are a systematic body of records responsive to the topic of the FOIA. Researchers should consult an archivist about related materials.

Records responsive to this FOIA were found in these collection areas – White House Office of Records Management (WHORM) Subject Files and Staff Member Office Files (SMOF).

The White House Office of Records Management (WHORM) contains a variety of series created to organize and track documents and correspondence. The WHORM Subject Files and Alpha Files were compiled by staff in the White House Office of Records Management and are a series of documents assigned a letter/number combination and filed in a series of categories by subject. WHORM Subject Files and WHORM Alpha Files are processed at the document level.

Staff Member Office Files are maintained at the folder level by staff members within their individual offices and document all levels of administration activity.

Staff Member Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.
